This is an excellent opportunity for us in WCTRS to encourage active participation of our talented younger colleagues to be more involved in the scientific activities of the society. In the same time, it is a unique opportunity for our younger colleagues to be more familiar with our practice and to get prepared to take the lead in the future. You may be interested to know that eight of your colleagues who participated in Edition-1 of WCTRS-Y, have been formally recommended to join our WCTRS activities in various ways and are progressing well.

I wish you all good luck and hope we can work together for promoting transport research through our distinguished society,

Leader of WCTRS-Y  
Member of WCTRS Steering Committee
